

The research field oriented Research Data Centre **fdz.DZHW** provides and archives quantitative and qualitative research data for scientific secondary use from the field of higher education research and science studies. The **fdz.DZHW** operates in accordance with the criteria for research data centres of the German Data Forum (RatSWD) who already granted preliminary accreditation.

The **fdz.DZHW** provides de facto anonymised Scientific Use Files (SUF) for research purposes and absolutely anonymised Campus Use Files (CUF) for teaching purposes. Digital Object Identifiers provided by da|ra and long-term preservation guarantee persistent identification, citability and availability of SUFs und CUFs..

The available data also qualifies for the analysis of research topics from related research fields like school or labour market research.

Further information is available on the project website of the **fdz.DZHW**:

<https://fdz.dzhw.eu/en>

Research Data Centre for Higher Education Research and Science Studies

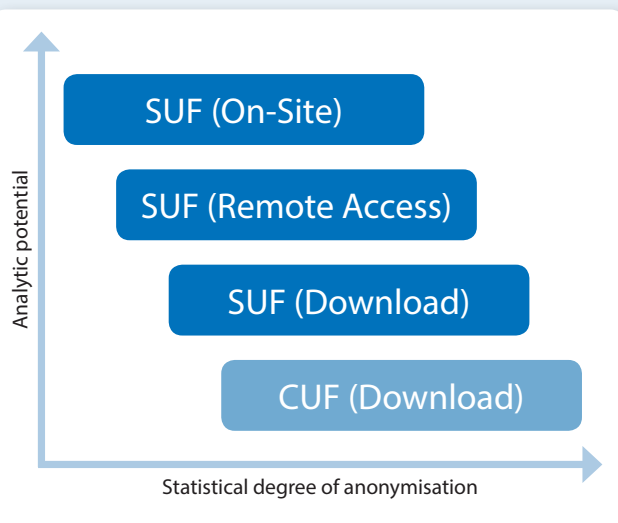

MODES OF DATA ACCESS

While CUFs are available as downloads, SUFs are provided via different modes of access:

- **Download:** data provision via the **fdz.DZHW** website; data processing on the data users local computer
- **Remote Access:** remote access to the **fdz.DZHW** terminal server via internet; no data transfer to local computers possible
- **On-Site:** guest workplace at the **fdz.DZHW**

To account for data protection regulations, the degree of anonymisation and the corresponding analytic potential vary depending on the mode of access.

SERVICES

Search Portal

for data sets as well as variables:
<https://metadata.fdz.dzhw.eu/#!/en/>

Provision

of data from higher education research and science studies for secondary use

User Support and Training

regarding available data and analytical potential

Documentation

on the basis of data and method reports, variable reports and survey instruments

Archiving

of data from higher education research and science studies for long-term storage

CURRENTLY AVAILABLE DATA

Panel Study of School Leavers

- educational biographies of school leavers with a higher education entrance qualification
- panel series since 1976
- available: cohort 2008 (1st to 3rd wave)

Social Survey

- economic and social situation of students
- survey series since 1951 (data pool since 1982)
- available: 19th Social Survey
20th Social Survey

Graduate Panel

- professional biographies of higher education graduates
- panel series since 1989
- available: cohort 2005 (1st to 2nd wave)
cohort 2009 (1st wave)

Careers of PhD Holders

- learning and development conditions, context
- available: cohort 2014 (1st to 2nd Wave)

WiNbus Online Panel among Young Academics in Germany

- "Academic Career and Family" - qualitative approach of WiNbus
- e. g. interview transcripts, postscripts, interviewing guideline

- data and documentation available only in German
- data and documentation available in German and from 2018 in English
- data and documentation available in German and English

Last Updated: July 2017
